How to use our PSD Mock-up?

Add your unique design

1. Open the PSD file.
2. Double click on the smart object layer „CHANGE - cup12oz-front-DESIGN-ok" - these open a new Photoshop window.

## 3. Edit the contents of the Smart Object, insert your design.

Replace with your design
Put a paper texture
Or change the paper color

4. Save. Then close the window.
5. In the original mockup PSD's updates with your design the smart object layer.

Change the lid color

1. Double click on the smart object layer - „CHANGE - cup-front-top-COLOR"
   opens a new Photoshop window.

## 2. Double click on the layer's small icon - to change the lid color.

3. Save. Then close the window.
4. The strap color has changed in the original mockup PSD's.

Extra bonus tips

You can play with the blending mode of the different layers - according to your taste :)

- Shadows, Reflections & Ambient occlusion,

- Drop shadow & Background color

You can play with these layers >
(Turn on/off, blending mode, etc.)

Happy Mockuping :)
