Our goal is to help creative peoples, graphic artists to showcase their work in the best way as possible. We make professional and useful psd mock-ups on various topics.

How to use our PSD Mock-up?
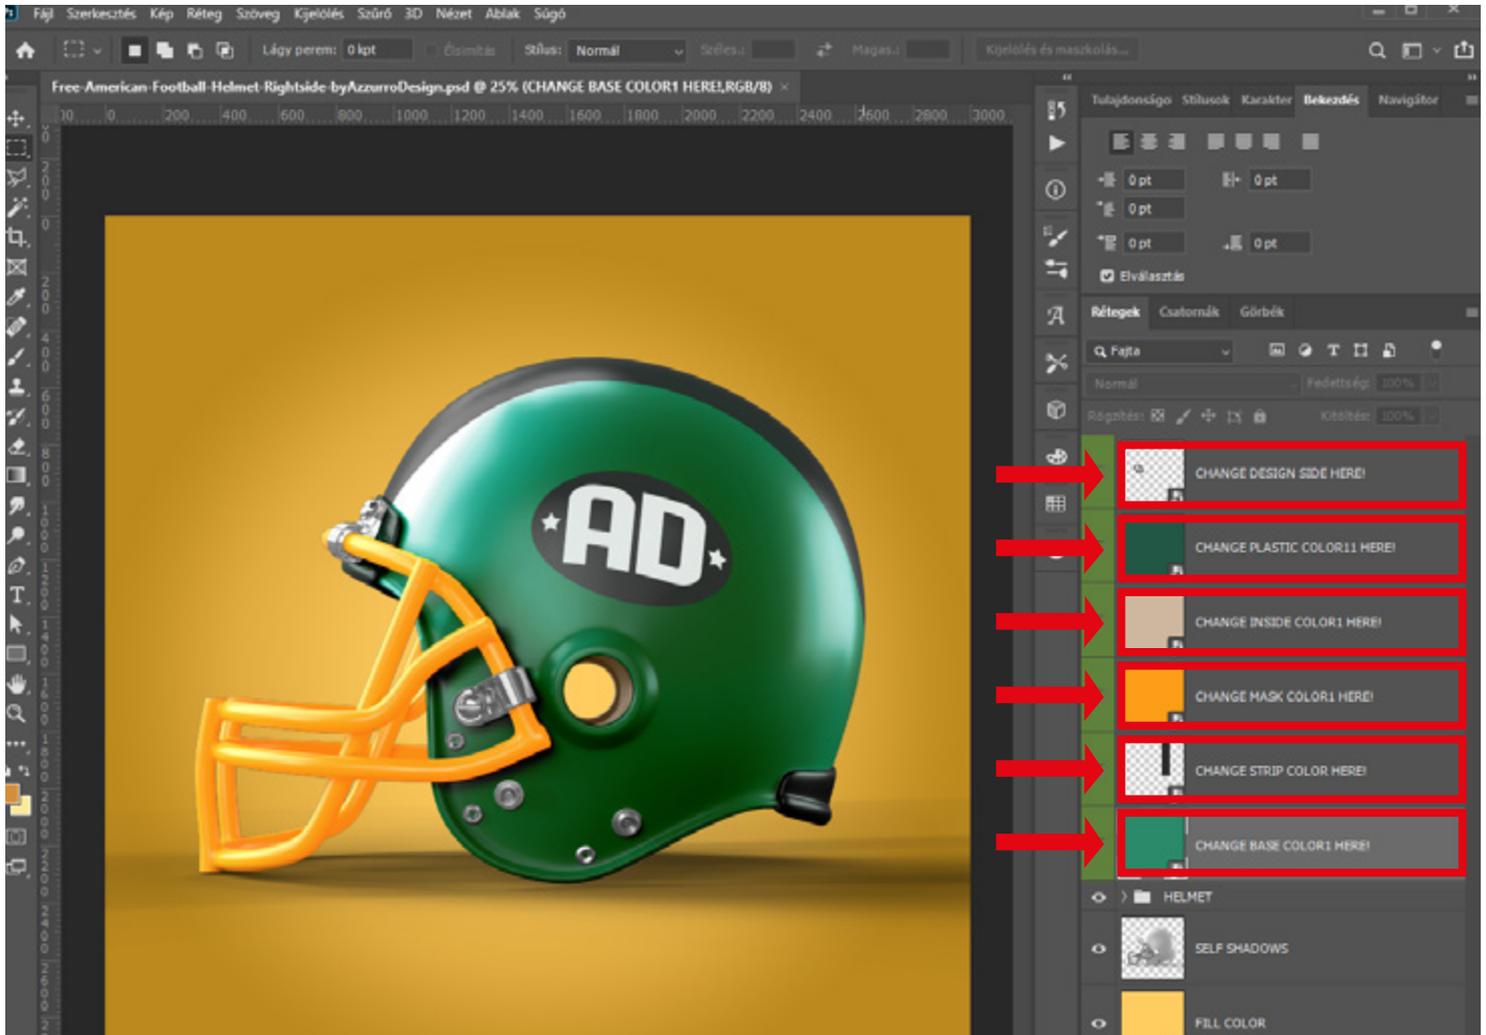

1. Open the PSD file in Adobe Photoshop.

2. Double click on the smart object layer „CHANGE ...." - these open a new Photoshop window.

3. Edit the contents of the Smart Object, insert your design.

4. Save. Then close the window.

5. In the original mockup PSD's updates with your design.

Extra bonus tips

You can play with the blending mode of the different layers according to your taste :)

- Shadows, Reflections & Ambient occlusion,

- Drop shadow & Background color

Happy Mockuping :)
